

DAILY TIME INVESTMENT PLAN TO CRACK AN IT JOB

TECHNICAL SKILLS
6 HOURS / DAY
(2 Hours Class + 4 Hours Practice)

+

NON-TECHNICAL SKILLS
3 HOURS / DAY
(Essential to Get Hired & Grow)

=

TOTAL TIME INVESTMENT
9 HOURS / DAY
(100% Focus. 100% Growth)

TOTAL: 9 HOURS PER DAY = 100% FOCUS

HOW TECHNICAL TRAINING WORKS

You will study ONE module at a time for 6 hours/day (2 hrs class + 4 hrs practice). Once the module is completed and you feel confident, you will move to the next module in sequence.

Module 1
(6 hrs/day)

Module 2
(6 hrs/day)

Module N
(6 hrs/day)

Repeat until
all modules
are completed

TECHNICAL SKILLS – 6 HOURS / DAY (ONE MODULE AT A TIME)

DAILY BREAKDOWN

2 HOURS – CLASS / LEARNING

- Concepts & Theory
- Live Coding / Demos
- Doubt Clarification

4 HOURS – PRACTICE / HANDS-ON

- Coding Practice
- Mini Projects
- Problem Solving
- Implement & Build

TECHNICAL MODULES SEQUENCE (STUDY ONE AT A TIME)

1	Programming Fundamentals	• Syntax, Variables, Loops, Functions, Problem Solving	6 Hours (2+4)
2	OOP & Design Patterns	• Classes, Objects, OOPs, Inheritance, Polymorphism, SOLID, Design Patterns	6 Hours (2+4)
3	Database & SQL	• SQL, Joins, Constraints, Normalization, Transactions, Stored Procedures	6 Hours (2+4)
4	Frontend (HTML, CSS, JS, TS)	• HTML, CSS, Bootstrap, JavaScript, DOM, ES6+, TypeScript	6 Hours (2+4)
5	Frontend Framework (Angular / React)	• Components, Routing, Forms, State Mgmt, HTTP, Auth	6 Hours (2+4)
6	Backend Development (NET / Java / Python)	• Framework Basics, Controllers, Services, Middleware, Config	6 Hours (2+4)
7	APIs & Integration	• REST APIs, JWT, Swagger / OpenAPI, Integration	6 Hours (2+4)
8	Architecture & System Design	• Clean Architecture, Modular Monolith, System Design Basics	6 Hours (2+4)
9	DevOps & Cloud	• Docker, CI/CD, Cloud Basics (AWS/Azure), Deployment	6 Hours (2+4)
10	AI Integration (LLM, RAG, AI Tools)	• Prompt Engineering, LLM APIs, RAG, AI Agents, AI Tools	6 Hours (2+4)
11	Testing	• Unit Testing, Integration Testing, API Testing	6 Hours (2+4)
12	Capstone Project (Enterprise)	• End-to-End Project with Deployment & AI Integration	6 Hours (2+4)

Key Point: one module fully (concept + practice + mini project).
Build confidence. Then move to the next module.

NON-TECHNICAL SKILLS – 3 HOURS / DAY DAILY BREAKDOWN

#	Component	Time / Day	Key Activities
1	Problem Solving & DSA	45 min	• Solve 1-2 coding problems • Learn DSA concepts • Analyze time & space complexity
2	Communication Skills	45 min	• Speak on a topic • Explain technical concepts • Write emails • Participate in discussions
3	Professional Skills	45 min	• Agile & Scrum basics • Jira / GitHub usage • Documentation • Code reviews
4	AI Productivity Skills	30 min	• Prompt engineering • Debug with AI • Use AI for coding help • Generate tests/docs
5	Interview Preparation	30 min	• HR & Technical Q&A • System design basics • Behavioral questions • Mock interview practice
6	Personal Branding	15 min	• Update LinkedIn • Improve résumé • Push code to GitHub • Work on portfolio
7	Aptitude & Logical Reasoning	15 min	• Solve aptitude questions • Logical reasoning • Verbal ability practice

Why Non-Technical Matters?

These skills help you get shortlisted, clear interviews, work effectively in teams, and grow in your career.

EXAMPLE DAILY SCHEDULE (9 HOURS)

Time	Activity	Duration
6:00 – 8:00 AM	Technical Training (Class – Current Module)	2 Hours
8:00 – 8:30 AM	Break & Refresh	30 min
8:30 AM – 12:30 PM	Technical Practice (Hands-on – Current Module)	4 Hours
12:30 – 1:30 PM	Lunch Break	1 Hour
1:30 – 4:30 PM	Non-Technical Skills (All Components)	3 Hours
4:30 PM onwards	Free Time / Revision / Walk / Rest	–

TOTAL TIME: 9 HOURS PER DAY

DAILY TIME DISTRIBUTION

33%
NON-TECHNICAL
3 Hours

■ Technical Skills – 6 Hours
■ Non-Technical Skills – 3 Hours

KEY TAKEAWAYS

- ✓ Technical: 6 hours (2 hrs class + 4 hrs practice) on ONE module at a time.
- ✓ Non-Technical: 3 hours/day (7 important skills).
- ✓ Finish one module completely, then move forward.
- ✓ Consistency > Intensity.
- ✓ Small daily efforts lead to big results.
- ✓ Balance both to get hired and grow faster.

SUCCESS FORMULA

2 Hours (Class) + 4 Hours (Practice)
+ 3 Hours (Non-Tech) Every Day =
High Skills, High Confidence,
High Job Opportunities!
